MESSAGE FROM THE PRINCIPAL

"Arise, awake and don't stop till the goal is reached" - Swami Vivekananda

It is well known that education is the foundation stone for great minds. As one amongst you, understand and appreciate the tedious and challenging task of shaping the destiny of a child. One of the main objectives of education is the establishment of a twofold harmony within every child i.e. harmony in child's own self and harmony amongst the society. For this our goal has always been personality shaping through curricular and co-curricular activities. The college provides ample positively challenging activities for the students so that their talent is nurtured to its best. The minds of teachers specially need a perfect molding to shape up their future. Hence, great focus is given on designing activities for the future teachers.

As a Principal, I always emphasize on building the best environment for the trainees which nurtures the best of their holistic development. We wish that our trainees smile and strive towards achieving their goals in life and we hope that every trainee savors the time spent at the institution. There is nothing more elating for a Principal than to see the young trainee teachers coming up with flying colors of talents. I earnestly hope that VTTC continues to empower the teachers such that society is enriched by their contribution. VTTC is grateful to all parents, alumni and local resources for their resolute support in assisting us in all our achievements.
